Low-Light Pistol Engagements

COURSE DESCRIPTION: It is commonly known that whenever we discharge our firearms in a self-defense situation, we need to properly identify our threat. Low-light training is often very minimal. Our 8 hour Low-Light course will train you how to deploy your weapon system in a low-light environment utilizing both handheld and weapon mounted white lighting systems. Students will employ white light techniques taught in class, allowing them to find which systems works best for them. Students will be required to work safely on a dynamic flat range around barricades and working around partners, all while demonstrating proper weapon fundamentals to engage and win deadly force encounters.
